PROFILE

WordPress developer with 3+ years building production WordPress systems in PHP, including direct, remote collaboration with a Canada-based company. Architected a custom plugin covering geolocation-based content routing, dynamic page generation via custom post types, and AJAX lead capture. Comfortable owning a build from database schema to front-end delivery.

SKILLS

- **WordPress:** Custom Plugin & Theme Development, Bricks Builder, ACF, Custom Post Types & Rewrite Rules, Gutenberg, WP-CLI, WP Engine
- **Languages / DB:** PHP, JavaScript (ES6+), SQL, HTML5, CSS3
- **Architecture:** Geolocation-based content delivery, AJAX endpoints, custom DB tables, JSON-LD structured data, REST APIs
- **Performance / SEO:** Core Web Vitals, PageSpeed/Lighthouse Auditing, Schema Markup, Yoast SEO, WCAG 2.1
- **Also familiar with:** React.js, Node.js, Express.js, SQLite, Tailwind CSS, Bootstrap, Figma, Git/GitHub
- **Currently building toward:** Claude/OpenAI API integration, n8n workflow automation

EXPERIENCE

Full Stack WordPress Developer | *Milani Electric and Solar Pvt. Ltd. (sister company of Milani Plumbing, Heating & Air Conditioning, Canada)* | Jan 2026 – May 2026

- Designed and built a custom WordPress plugin ("Milani Core") extending core CMS functionality to remove reliance on third-party plugins, including a 3-tier geolocation engine (IP detection → postal-code fallback → Haversine distance calculation) to route visitors to the correct regional content.
- Generated 100+ dynamic city/service pages programmatically using custom post types and rewrite rules, cutting new-location setup time by an estimated 60% versus manual page creation across 13 cities.
- Built an AJAX-based lead capture system writing to a custom database table, integrated with reCAPTCHA v3, Google Tag Manager, and the Conversions API.
- Implemented JSON-LD structured data for local SEO and cookie-based return-visitor routing to personalise content on repeat visits.
- Worked directly and remotely with the Canadian parent company's team, gaining hands-on cross-border, async collaboration experience.

Software Developer (Frontend) | *Compunnel Software Group, Inc.* | Jul 2022 – Jan 2023

- Built and enhanced reusable React.js UI components for Red Hat's client-facing eBook platform, implementing WCAG 2.1 accessibility standards.
- Diagnosed and resolved complex UI bugs (layout, rendering, interaction) and collaborated asynchronously with cross-functional teams across multiple dashboard interfaces.

Coding Mentor – Web Development | *WhiteHat Education Technology Pvt. Ltd.* | July 2020 – July 2022

- Delivered structured remote learning content on HTML, CSS, JavaScript, REST APIs and CRUD via a game-based learning platform; guided students in building accessible, interactive projects and integrated AI-assisted development workflows and automation tools into the curriculum.

Program Associate | *Channelplay Limited* | March 2018 – March 2019

- Managed client projects for global brands including Adidas and Hublot, conducting operational and mystery audits across retail locations.

Frontend Intern | *IBM India Pvt. Ltd.* | June 2016 – July 2016

- Designed and delivered responsive landing pages for Vodafone product campaigns, applying mobile-first design principles

EDUCATION

- B.Tech ECE — NorthCap University, Gurugram, India | 2014 – 2018 | CGPA 7.31
